## Winter 2008

Dear Friends,

About six months ago when our younger son, Greg, was in town, we were discussing the fact that his sister hadn't spoken to him in about four years and no one knew why. She was cordial but cool to her older brother. I suggested to Greg that we try a noble experiment and do forgiveness with her and see what happens. I had introduced him to A Course in Miracles about a year ago and he took to it like a duck to water. The premise of A Course in Miracles is that there is nothing but God. If we are not seeing God in all people and things around us, then we are only seeing the projection of our own consciousness. To see God and the Truth, we must forgive or let go of what we see, to allow God to manifest. Greg agreed to the plan and went back home.

A month ago, our older son's wife was very ill. When I called our daughter to tell her about it, she said that she felt as though she needed to come in as her brothers were there for her when she was sick. That was the first miracle. When I told her that Greg would be here as well, she decided to stay an extra day to be able to spend some time with him. They talked for quite awhile. That was the second miracle. We were quite impressed with our good work. Miracles happen when you forgive, hence the name of the Course. Anything can happen when you forgive! Remember the phrase, when two or more are gathered in my name, there so am I. Give the gift of Miracles now for Christmas and all year. When you join with another in forgiveness and love, God is there and Blessings flow.

Coincidentally, for awhile I was feeling that although I was happy, I really wasn't joyous and wanted to feel joyous with all my heart. I started asking Spirit for a message. Suddenly it dawned on me that all I was seeing was an illusion, as I watched the fall of the financial markets and listened to the television reports of doom and gloom. I remembered when I used the Abundance book by John Randolph Price to bring in money during my own private financial crisis, by repeating to myself 20,000 times a day the affirmation, MY PROSPERITY COMES FROM GOD, as he suggested in the book, not from all these other avenues where I was looking for it. I kept affirming I TRUST YOU GOD, and God provided as He/She always does, when we surrender. I realized that what I was seeing in the world was only an illusion It wasn't real, and as a Child of God I can create my own reality, my Joy and prosperity no matter what was happening around me, and so can you. Certainly that was a reason to be Joyous!!!! So, bring the Blessings of love, good health, peace and prosperity to yourself and to the world. Have a Joyous New Year and keep it all year long!

I wish you magic and Miracles for 2009.

May the Joy never end! With love,  
Nancy

## Axiational Alginment - The Reconnection

This alignment reconnects the meridian lines on our bodies

to the grid lines which encircle the planet and cross at the areas of the sacred vortex cities such as Machu Pichu and Sedona, Arizona. These grid lines continue out and connect us to the Universal Grid or Cosmic Lattice, tying us to the other planets, stars, and space between. It empowers you and brings in greater frequencies for healing.

The alignment is done over a period of two days.

## Awakening to Truth

Are you ready to receive the Light of God, the Love of God, the Power of God, and the Glory of God? If the answer is Yes, then these Initiations are for you!

Awakening to Truth is a series of four powerful initiations that were done in the ancient temples of Greece and Egypt. They will open you to the truth of your own Divine Being. You will receive:

- The Love of God in the first initiation.
- The Light of God in the second initiation.
- The Power of God in the third initiation.
- The Glory of God in the fourth initiation.

The initiations can be done in a class or individually, but must be done at least a week apart.

## Reiki Healing - The Gift of Love

Reiki is a natural, laying on of hands healing technique that is over 2500 years old. It was rediscovered in Japan first by Tanaka Daireido and made well known later by Dr, Mikao Usui. He was searching for enlightenment and discovered healing when he was struck by lightening. Reiki means Universal Life Energy. Rei means soul and Ki means energy.

Reiki relaxes the body. It gently removes stress and crystallizations on all levels. Healings remove deeply buried emotional and mental blocks that create disease in the body and difficulties in our lives. It restores the natural alignment of the mental, emotional, and physical bodies and allows the

soul energy to pour forth. Reiki creates an increased energy flow and a sense of well being. The client is fully clothed and the healer places his or her hands on the client's body where the energy is blocked.

Many people have been able to release long standing difficulties in just one healing. Miracles become a common occurrence. Nothing is impossible to Reiki if the individual being healed will allow miracles to happen.

In a Reiki I class given by a traditional Master, the student receives four attunements or initiations to the energy. Reiki is more than just another healing modality as the attunements create a powerful catalyst for change. They awaken the individual's own healing channel, align the mental and emotional bodies with the soul energy, and open the psychic and intuitive abilities. Once the student is attuned to the energy, he or she can immediately begin to heal him or herself, others, plants, and animals. I have even had great success with machines such as cars, tape recorders and my clothes dryer.

The healer always receives a healing while giving a treatment, so the energy is never depleted. Reiki blends with all other healing modalities. It is wonderful for doctors, nurses, and body workers. It also helps anyone dealing with the public and those wishing to heal themselves and others, as well as the planet. Anyone with a sincere desire to heal themselves or others can do this.

The attunements or initiations to the energy continue to expand one's consciousness. I have found that it is easier to release fears. I have ever increasing self-confidence and self-awareness, good health, and happiness since my own initiations. It never stops blessing my life, and I am grateful for it.

Before I took my first Reiki class, I had a dream that said that healing was the gift of love. After twenty-seven years of working with Reiki, I know it to be absolutely true. I know that when I place my hands on someone or something and allow the energy to flow, and see results, it is the purest way that I love. It is definitely God's gift to us.

A Reiki I class is generally a two day experiential workshop. All students give and receive healings. Certificates are

awarded upon completion of all Reiki classes. Reiki II is an advanced one day class. The student learns distant and mental healing and receives two more attunements to the energy. With each subsequent class the attunements become that much more powerful. In Reiki III the student receives the Reiki Master symbol and the Reiki Master Initiation.

Healings are done on an individual basis by appointment.
